In an effort to protect the health and safety of our customers, vendors and employees, and promote social distancing, as well as to mitigate the COVID-19 outbreak, Roura Material Handling, Inc. will be closing its manufacturing facility in Michigan.

Our company and all our employees are recognized by the U.S. Department of Homeland Security as WORKERS ESSENTIAL CRITICAL INFRASTRUCTURE DURING COVID-19 RESPONSE. Our offices will remain open as our employees will be working from home. Roura will continue to assist customers and respond to quote requests as well as process orders.

Although this shutdown may result in a delay of shipments, we will strive to maintain our usual high standards of customer service.

Our company encourages people to stay calm, practice good personal hygiene behavior, and be smart about group interactions. We are resilient people, and I am confident we will get through these coming days. Roura wishes you, your colleagues, friends and family safety and good health.
